Note about official Busch agency in Bulgaria

Dear Ladies and Gentlemen,

in the past repeatedly various Bulgarian companies poses themselves as a Busch dealer for the Bulgarian market and selling rebuilt spare parts with really poor quality for Busch vacuum pumps. Apart from that it can be dangerous to operate our products with not origin spare parts and consumer articles also it means the laps of the warranty.

Therefore we kindly inform you that the company

Adara Engineering Ltd.

is truly the only **official Busch agency** for the **entire Bulgarian market**, has absolute excellent qualification for sales and service skills of Busch vacuum pumps and ensures the supply of origin Busch spare parts.

This is stated by the responsible Busch company for this region and the enclosed yearly agency certification for the business year 2015. Also please see www.buschvacuum.com – contact for Bulgaria.
